

RUMILUZ SB

DEHYDRATED LONG CHOPPED ALFALFA
IN SMALL BALE 20 KG

A packaging specially adapted
to specific farms

Désialis

Historically developed for ruminants in milk production: high-performance dairy cows and small ruminants (ewes and goats), dehydrated alfalfa long strands bale allowed to position French alfalfa in a high-tech market.

Available in a size of 20 kg, RUMILUZ SB is a particularly suitable product for handling and distribution in small quantities for certain types of farms: individuals, poultry professionals, stables, mountain areas ...

PROMOTES RUMINATION FOR BETTER PRODUCTION PERFORMANCE

Made to obtain clean cut strands, mostly 3 to 5 cm, the RUMILUZ strands are of optimal size to promote rumination and saliva production.

Thanks to its regular and homogeneous quality, RUMILUZ SB provides appetizing fibers that are easily consumed by small ruminants.

→ Its use in ruminant feeding by increasing fibrosis limits the risk of acidosis by increasing salivation.

CONTRIBUTES TO THE NUTRITIONAL BALANCE OF RATIONS

The richness of nutrients and minerals is preserved by the production process, thus, RUMILUZ SB ensures a complementary high quality food.

RUMILUZ SB can buffer high energy foods. This restored balance largely contributes to the food efficiency of the ration.

→ Contributes to the nutritional balance of the diet and promotes the health and fertility of ruminants.

EASY TO CARRY, TO MANIPULATE AND DISTRIBUTE

► Small bales of 20 kg with plastic strapping - dimensions 0,50m x 0,30m x 0,30m

► 32 small Bales of 20 kg with plastic strapping - no bagging - without pallet in bundle of 32 balls = 640kg, 1 pile = 2 bundles (2x32 bales) = 1280kg with overall dimensions: 1,00m x h2,40m x 1,20m

DEHYDRATED LONG STRAND ALFALFA

FIBROSITY

Optimum cutting quality, with strands, mostly from 3 to 5 cm

→ permits uniform, regular and total consumption ensuring optimal fiber content of the ration

DRY MATTER

The dry matter is stabilized at 90% thanks to the dehydration

→ Increases the MS rate of the ration

PRACTICALITY

Presented in the form of 20 kg bales, easy to store and preserve

→ Fibers ready to be incorporated into the ration without the need to chop

DEHYDRATED LONG STRAND ALFALFA IN SMALL BALE 20 KG
