EFFECTIVE FIBERS BY THEIR PHYSICAL EFFECT

High producing ruminants are continuously under the risk of acidosis.

Rumiplus balances the diet by providing fibers at a sufficient length and by increasing the volume of effective fibers in the daily ration.

THE BEST LONG STRAND BALE

Rumiluz is an original product from the Désialis long strand bale range, and for over 15 years has been bringing farmers:

- the security of a 100% traced product,
- scientifically proven zootechnical performance that is recognised by farmers

EFFECTIVE FIBER AND ENERGY

The production process of Rumiluz preserves all the qualities of the fresh alfalfa.

Rumiluz supplies fibers without reducing ration concentrations and improves efficiency compared to most other fiber sources.

Ration rich in cereals,
corn silage and/or by products

Risks of acidosis

Rumiplus enriched ration to
replace cereals, corn silage and/
or by products

No risks from the diet
More efficient ration and
improved production.

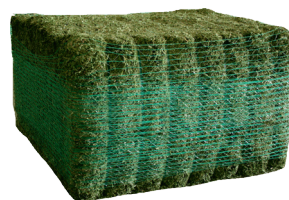

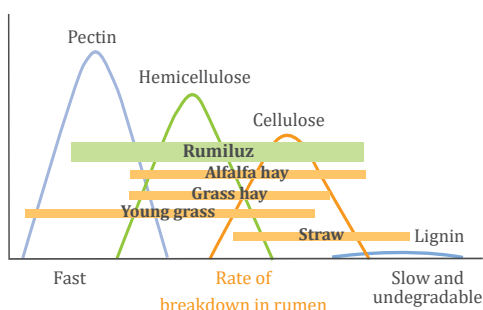

Physical effect:

Stimulation of ruminal
papillae, better rumination,
increased saliva production.

Buffer effect:

rich in inorganic compounds
(including calcium) and
organic acids (including malic
acid).

Improved rumen health, better pH regulation, improved intake, better
milk production (amount and quality).

About 350 kg bales
with plastic straps
(1.4m x 1.2m x 0.75m)
weight +/- 10%

Recommendations for use

Dairy cows: 2 to 4 kg
Steers: 1 to 2 kg
Heifers: 0,5 to 2 kg
Dairy goats: 0,5 to 1 kg
Dairy ewes : 0,5 to 1 kg

Crude Nutritional Values

(humidity : 10 %)

Crude proteins	15,3 %	Crude Ash	11,1%
Crude fiber	27 %	NDF	40 %
Fat	2,5%	ADF	29 %

Values at June 2017
